

Idaho Geospatial Council Bylaws

Provisions of the Bylaws shall not be in conflict with the Executive Order creating the Idaho Geospatial Council.

Article I. Identity

1. Identity

1.1 We are the Idaho Geospatial Council (IGC) a subcommittee of the Idaho Information Technology Resource Management Council (ITRMC).

1.2 We are composed of a General Council called the Idaho Geospatial Council and an Executive Committee called the Idaho Geospatial Council Executive Committee.

Article II. Mission, Purpose

1. Mission Statement

1.1 The mission of the Idaho Geospatial Council is to provide a forum for the Idaho Geospatial Community to facilitate the use, development, sharing and management of geospatial data; and to communicate the value of geospatial information to citizens and decision-makers.

2. Purpose

2.1 The purpose of the Idaho Geospatial Council acting through the Executive Committee is to provide policy-level direction and promote efficient and effective use of resources for matters related to Geographic Information. To that end they shall:

- a. Promote cooperation among all stakeholder groups in addressing geographic data and information needs and services in Idaho;*
- b. Review priorities for statewide Geographic Information needs and assist in the development of projects, plans, policies, standards, priorities and guidelines for geographic information;*
- c. Facilitate cooperative and contract arrangements to develop and maintain high-priority geospatial databases, applications, and services, collectively referred to as the Idaho Spatial Data Infrastructure (ISDI);*

- d. Promote and seek financial support for ISDI as described and planned in the Strategic and Business Plans for Development and Deployment of Idaho's Spatial Data Infrastructure (March 2009); and*
- e. Provide recommendations to ITRMC, the Governor and the Legislature, when appropriate, concerning issues related to Geographic Information in Idaho.*

Article III. Membership

1. Idaho Geospatial Council General Membership

1.1 The Idaho Geospatial Council is composed of representatives from all stakeholder groups, including federal government, state government, regional government, county government, municipal government, tribal government, higher education institutions, public utilities, private companies, and the public at large. Membership is open and may also include elected officials, executives, surveyors and others whose business needs or interests intersect with or depend on Geographic Information and services.

1.2 The purpose of the Idaho Geospatial Council is to broaden and deepen participation in statewide geospatial efforts and decisions.

1.3 The Idaho Geospatial Council will maintain a membership registry.

1.4 To become a member an individual must add their name to the membership register.

1.5 Each member is accorded one vote or one proxy.

2. Idaho Geospatial Council Executive Committee Membership

2.1 The purpose of the Idaho Geospatial Council Executive Committee is to act as the decision-making and steering body for the Idaho Geospatial Council.

2.2 The Idaho Geospatial Council Executive Committee is composed of sixteen (16) members: four (4) standing members, and twelve (12) elected members.

2.3 Standing Members

a. Standing members shall remain part of the Idaho Geospatial Executive Committee through perpetuity.

b. Standing members shall include:

1. The current Idaho Geospatial Information Officer
2. The current Idaho Geospatial Clearinghouse/Portal Manager

3. The current GIS Training and Research Center Manager

4. The current USGS Liaison for the State of Idaho

c. Standing members shall not be eligible to hold the position of Chair of the Idaho Geospatial Council Executive Committee.

2.4 Elected Members

a. Twelve members shall be elected to the Idaho Geospatial Council Executive Committee from the Idaho Geospatial Council general membership.

b. The twelve members shall be selected to represent the following stakeholder group sectors:

1. Two state agency representatives

2. Two federal agency representatives

3. Three local government representatives

4. One tribal representative

5. One utility representative

6. One private sector representative

7. Two open representatives

c. Elections will be held. A simple majority of votes is required to select the outcome of these elections.

d. The Information Technology Resource Management Council must approve elected members.

e. Each Idaho Geospatial Council Executive Committee member is allowed one vote or one proxy.

f. A Chair person shall be elected from within the Idaho Geospatial Council Executive Committee. The sixteen members shall participate in this election.
